Planning Staff meeting with Neighborhood Councils

Great Falls Planning and Community Development staff will be attending meetings of all nine of the City's Neighborhood Councils in January and February.

The purpose of our participation is to update the councils, with their many new members, on current development trends and some of the Department's activities and initiatives.

Our brief presentation will review the major development projects ongoing in the city, as well as continuing efforts in transportation planning, floodplain management, and historic preservation. We will also describe the development code review process that begins at the January Planning Advisory Board meeting. Questions will be welcome.

Visit the Neighborhood Councils webpage for more information on the City of Great Falls Neighborhood Councils.

Meeting schedule:

Neighborhood Council #	Location	Date	Time
