Use the [Supplemental Report](#) to document additional property loss. This can only be used if you have previously completed an original police report, either online or to an officer, and have an incident case report number (CR#); this is a four digit year, followed by five numbers, such as "2015-12345." The Great Falls Police Department cannot accept supplemental reports which do not have a matching original incident report. You cannot make up an incident number or leave it blank.

Complete this form accurately and as completely as possible, this will help us screen your report for potential follow-up investigation. If you only have partial information (like part of a license plate or a person's description), please give us whatever you have! If you need to report more than one crime incident, send us a separate report form for each one. However, if you have multiple items involved in one incident, such as owning two vehicles and both were vandalized, you only have to submit one report form.
