## Permits

**Right-of-Way Permit:** Required for all excavations within the public right-of-way other than excavations for curbscuts, driveways and sidewalks which have separate permits.

**Fire Line Permit:** Required for repair or installation of any water service used as a dedicated fire line.

**Curb Permit:** Required prior to any excavation, removal, replacement of concrete curb or curb and gutter in a dedicated right-of-way.

**Sidewalk Permit:** Required prior to any excavation, removal, and replacement of concrete sidewalk in a dedicated right-of-way.

**General Plumbing Permit:** Required when any water service piping is repaired, altered or installed.

**Razing Permit:** Required whenever a building is to be moved or torn down and the water and sewer lines are to be cut-off or abandoned within the right-of-way.

**Building Sewer Permits:** Required for residential and commercial service. Plans, specifications and other pertinent information must accompany the application.
