

Dog Park

[The Pacific Steel & Recycling Trailside Dog Park](#)

located at 800 River Drive North adjacent to River's Edge Trail. It is part of the City of Great Falls public park system, and hours of operation are the same as other public parks - dawn to dusk.

An attractively fenced and landscaped area where dogs can run and play "off leash" with their canine and human friends, it is a great place for dogs to exercise and socialize with other dogs. And, yes, the people enjoy the same amusements.

The park features separate fenced areas for big dogs and small dogs. These off leash areas are divided by a plaza with benches and a pavilion - an excellent viewing area for people who may not have a dog but would like to watch dogs romp, run and retrieve. Disposal bags and garbage cans are readily available, of course. A drinking fountain for both dogs and humans is also in place at the dog park, but this feature is winterized during the cold months, so please be prepared by bringing water for your dogs.

We ask that you use proper pet-etiquette, and obey the rules of the park.
