

Title 17 - Land Development Code Interpretations

While the City's Land Development Code provides definitions for uses and guidance for application of provisions and standards, occasionally a provision of the Code needs clarification. In such instances, a formal interpretation is written, providing interpretation guidance for staff and the public.

Please see "Supporting Documents" below for links to Code interpretations on Mobile Food Vendors in the C-4 Zoning District and Major Alterations to Single-Family Homes to Accommodate Multi-Generational Occupancy.

The interpretations on this page are provided as PDF documents. If you have any problems accessing these documents, or need them in a different format, please call 406-455-8438.
